DIXIELINER SERVICE

The Airlines Are Lifelines of a Nation at War

The United States Government has recognized this fact in several ways:

MAINTENANCE MATERIAL: All Airlines operate under a high priority rating. This assures a constant supply of replacement parts, reserve engines and propellers to keep all planes at peak efficiency for the fastest transportation of men, mail and materials.

★

GOVERNMENT INSPECTION: Airliners are under constant government inspection—supplemented by daily inspection by Airline experts.

★

PERSONNEL: Experienced Airline pilots and mechanics operate and maintain every transport plane, through the full cooperation of the U.S. Armed Forces, who recognize the fact that the Airlines are industrial Lifelines.

Dixieliners ARE GAINING *Time* FOR THE NATION'S *War Industries* AND *Military Forces*

THEY carry tons of essential parts and materials at the greatest possible speed . . . to break bottlenecks and factory tie-ups in every state.

They carry countless Army and Navy men, executives and technicians, tons of mail, blueprints, official orders, thousands of miles—in hours, not days—to speed the tempo of production.

Dixieliners make it possible for war production business to do its job with the speed and efficiency demanded of everyone in a nation at war.

By annihilating distance, the speed of Dixieliners creates for the United States and her Allies the key to an earlier victory—TIME itself.
