Delta AIR LINES

TELEPHONES, three tons of them, were recently flown by Delta from Chicago to Atlanta to aid in relieving the equipment shortage. The shipment went in the cargo bins of a big DC-4 Deltaliner on the same flight with 44 passengers. Other regular shipments include newspapers, film, and urgently needed medicines, such as penicillin. Scarce textiles, shoes, jewelry, fresh flowers, are frequent items.

Delta Air Freight Covers the South

"STEVE, THE FLYING SHRIMP" is regular cargo from Charleston and Savannah to inland hotel tables. Seafood is finding vast new markets via Air Freight, and goes from ocean to midwest menu in less than a day. Dressed poultry and frozen foods, fresh flowers, and other perishables contribute to the growing volume of Air Freight.

PLANTS AND SEEDLINGS, in this case a plane-load of tomato slips, move North from Georgia to an Ohio cannery truck farm for transplanting. In this first experiment, Air Freight saved an entire crop when an early Spring matured the delicate slips too rapidly. Such full planeloads are carried at rates as low as 21 cents a ton mile.

WHEN time means money, or when perishables call for speed, shippers now turn to Delta's new Air Freight service which moves anything from a few pounds on up to a plane load. Since rates average less than half those of air express, many commodities new to the air are moving in steady volume. Sea-food, new feminine fashions, electrical parts, optical supplies, machinery, and even livestock are part of the varied Air Freight cargos.

Air Freight moves on all scheduled flights. Thus there's no waiting to fill up a full load with cargo. Delta also offers shippers a pick-up and delivery service, if it is wanted.

AIR FREIGHT RATES
