Established in 1992 as a regular public transport service, Melbourne Regional Airlines is subject to the same stringent guidelines and checks with regard to maintenance etc., as domestic and overseas airlines.

The management team recognised the need to service key regional destinations throughout Victoria and Tasmania and with the assistance of the Victorian Tourism Commission and extensive research a number of these destinations were selected and are now serviced.

From time to time these services will be reviewed to maintain the highest standards of quality and customer satisfaction and to expand to other key regional destinations.

These destinations already on line provide quick, safe, reliable access to some of Victoria's and Tasmania's greatest attractions:

- The Great Ocean Road
- The Grampians
- The mighty Murray and
- The rugged islands of Bass Strait.

Melbourne Regional Airlines are committed to providing one of the best services throughout the South West.

We invite you to be the judge. Join us on our next flight.
