A WORD ABOUT OUR TIMETABLE

All main schedules are laid out to be read downwards from port of origin to port of termination. The 24-hour clock is used throughout. Times from midnight (00.01) to midday (12.00) are shown in light faced type; those from midday (12.01) to midnight (23.59) are in bold faced type. All times quoted are local times applicable at the port of call. Fares are listed alphabetically by point of origin, and in general apply for the more direct routings available between the points concerned. Where more than one fare is listed between the same two points, appropriate transit cities are shown alongside as necessary to indicate the route of travel. GMT. The column at the left of the schedules shows the hours each port is fast (+) or slow (-) in relation to Greenwich Mean Time. THERE ARE OCCASIONS ON WHICH THE SCHEDULES OR FARES QUOTED MAY BE CHANGED AFTER PUBLICATION AND THEREFORE ALL THE INFORMATION GIVEN HEREIN IS SUBJECT TO ALTERATION WITHOUT NOTICE.

5 Qantas Jet Services a week

SYDNEY-LONDON AND AROUND THE WORLD

A journey around the world is no longer something that needs years of planning and months of travel. You can set off immediately on a sight-seeing trip by Qantas 707 jet that will take you through America, Europe, Africa, Asia, Australia, and bring you back in a matter of weeks. Total time in the air would be under 56 hours — your longest single hop would be

under 7 hours between New York and London. You can stop over when you like and where you like at no extra air fare.

When you travel Qantas you certainly see more and do more — you get the most out of your travel time and the best value for your travel money. Your travel agent or Qantas will advise and assist you without cost or obligation.

QANTAS

Australia's Round-World Airline

PASSENGER INFORMATION

CONDITIONS OF CARRIAGE

Your ticket is issued subject to our General Conditions of Carriage for Passengers and Baggage which may be inspected at any Qantas Office. An extract from these conditions also appears on your ticket.

RESERVATIONS

Make your reservations as early as possible to avoid disappointment and to enable you to complete your travel arrangements at leisure. Upon arrival at destination or transfer points confirm your onward or return reservations with the carrying airline as reconfirmation will ensure your further travel. If your itinerary involves travel into and out of one of the following areas by air and the total continuous time spent in that area exceeds 72 hours, you are required to reconfirm your reservation on the flight departing from the area at least 72 hours before scheduled departure time:—

- (a) Canada and Continental U.S.A. (excluding Alaska).
- (b) United Kingdom, Ireland, Continental Europe and Israel (only applicable for travel from this area over the North Atlantic).

Reconfirmation must be made with the airline with whom you are leaving the area and may be made at any office of the airline located in the area. Should it be necessary to cancel or postpone your travel, please advise us at the earliest opportunity and return your ticket.

YOUR TICKET

You may pay for your travel right to your final destination and through fares are available between the majority of places. These through fares are in most cases cheaper than if you were to pay for a new ticket at each point at which you break your journey. Whilst retaining the advantage of a through fare you may break your journey at almost any point along the route provided you advise us of your intentions when booking. The validity of your ticket is normally twelve months and all travel covered by your ticket should be completed within this period. Return tickets purchased before departure will save you approximately ten per cent, and relieve you of having to transfer funds for payment of your homeward journey. Reservations may be made for the complete journey or the return portion may be left "open dated" to be used at any time within twelve months. Fare reductions similar to the return ticket discount are also available for certain types of journeys where the passenger travels outwards and homeward by different routes and you should enquire about these facilities when booking.

ACCOMMODATION AND MEALS

Your fare includes the cost of meals and accommodation both in the air and at stopping places (including overnight stops) whilst you are actually in transit on our aircraft. In some cases accommodation and meals will also be arranged and provided for you at points where you are transferring to another service. You are advised to ensure that accommodation is booked in advance at stopover points and at your destination. Confirmation of reservations should be held before departure.

GROUND TRANSPORT

In most countries a small charge is made for Transport between Airports and City Terminals. Your ticket shows at what time you are expected to report at the City Terminal or Airport. In the interests of all passengers these times have been very carefully calculated and, to avoid inconvenience to yourself and to others, they should be closely observed.

PASSPORT AND HEALTH CERTIFICATES

Before you commence your journey it is necessary for you to have a valid passport containing endorsements, visas and permits for the countries you pass through. Also, to comply with regulations in these countries, you will need valid health certificates indicating that you have been inoculated against certain diseases within a stipulated period before arrival. We shall be glad to advise you fully of the requirements for your trip and assist in completing these formalities. These documents should be kept on your person or in your hand-bag at all times so that they can be readily produced when required.

CURRENCY

Most Governments restrict the amount of currency which may be taken into or out of their countries. The carriage of notes or coinage is particularly restricted. You are, therefore, recommended to carry your main funds in the form of travellers' cheques or letters of credit.

BAGGAGE

When packing your baggage you should place all items you may require at nightstops in one bag. Make sure you include toilet articles, night attire and a change of clothes in this bag, remembering the variations in climate. At nightstops your baggage will be unloaded from the aircraft and placed at your disposal. Toilet articles and other small items necessary for use in

flight or at transit stops may be included in a small unregistered cabin bag in your own care but the weight thereof must not exceed 10 lbs.; this bag will be counted as part of your free baggage allowance. Government regulations forbid the carriage of articles which are easily ignited, such as lighter fluid, matches, cleaner fluids, etc. You may, however, carry a small supply of safety matches or a cigarette lighter on your person. Valuable articles such as jewellery should be retained in your personal charge whenever possible. Your hats, coats, umbrellas, etc., are your own responsibility and we would ask you to take special care of these personal belongings.

FREE BAGGAGE ALLOWANCES

Your ticket entitles you to a free allowance of baggage. The amount of the free allowance as set out below varies from 35 lb. to 66 lb. and is dependent on your journey. Allowances for children also vary according to the journey and the child's age.

Personal articles—such as a lady's handbag, books, a spare overcoat (extra to the one you are wearing), a rug, an umbrella or a walking stick, binoculars—are carried free as unregistered baggage in addition to the free baggage allowance. However, this does not apply to your cabin bag, the weight of which is counted as part of the amount of your free baggage allowance, and must not exceed 10 lb.

First Class passengers	30 kgs. (66 lb.)
Economy (and Tourist) Class passengers	20 kgs. (44 lb.)
Exceptions:			
Journeys solely within Australia	16 kgs. (35 lbs.)
Journeys between Australia and Norfolk Island	20 kgs. (44 lbs.)

EXCESS BAGGAGE

If you wish to carry more than your free weight allowance there is a charge payable at the rate of 1% of the applicable First Class one-way adult fare per kilogram of excess weight.

However, the carriage of excess baggage is subject to space being available in the aircraft and, therefore, we cannot guarantee that it will travel with you on the same flight.

If you think you are likely to exceed your weight allowance and would like to check the weight of your baggage before your departure, the scales in any of our offices are at your disposal.

Baggage may be bulked for the purpose of calculating excess baggage charges in the case of two or more passengers who at the time of booking:

- (i) have given notice of the fact that they are travelling as one party to a common destination on the same flight, and
- (ii) present themselves (with baggage) for travel at the same time and place.

UNACCOMPANIED BAGGAGE

For information on unaccompanied baggage, please refer to the Cargo Information page in this timetable.

CAMERAS

Cameras and binoculars may be carried and used on all Qantas services except when over certain restricted areas about which the cabin attendant will advise you. Your camera and binoculars should be declared to the Customs whenever baggage is examined.

CHILDREN

Children under 12 years of age are charged half fare; with the further concession that infants under two years are carried at 10% of the fare (free, if travel is solely between Vancouver and San Francisco), provided that they do not occupy separate seats and are accompanied by a full fare paying passenger (limited to one infant with each accompanying adult).

Exception: For journeys within Australia, half fare applies to children under 15 years of age; and infants under 3 years are carried free (subject to the same conditions as above).

Ages are taken as at the beginning of the outward journey. There is no free baggage allowance for infants carried free or at 10% fares. Children who are charged half fares receive the full free baggage allowance.

WOMEN'S TRAVEL CONSULTANT

For advice and assistance on personal problems connected with your journey, we suggest you get in touch with our Women's Travel Consultant, who is located at our Sydney office.

SPECIAL FOODS OR DIETS

Passengers requiring special foods or diets are asked to make their requirements known at the time of booking in order that arrangements can be made to fulfil their requests.

FOR FURTHER INFORMATION YOU MAY REQUIRE BEFORE DEPARTURE DO NOT HESITATE TO CONSULT YOUR QANTAS TRAVEL AGENT WHO WILL BE GLAD TO ASSIST

QANTAS AIR CARGO

can and will speed

IT

for you

At rates that are surprisingly low when ALL of the costs that you now incur with your present combined Sea and Land transportation are compared with the one Air rate from centre to centre.

Give your Agent or Qantas a chance to show YOU that there ARE new profits for you in distribution by air.

* IT — is everything from a lettuce to a lathe, an opal to an ox or a drug to a drill (pneumatic or dental whichever you prefer!)

QANTAS AIR CARGO

In general, goods of all kinds are acceptable for carriage as Air Cargo, and should your consignment be destined for a place not served by QANTAS or its associated carriers, we can arrange to reforward it beyond our routes to almost any point in the world.

CONSIGNMENT NOTE

A Consignment Note is issued in respect of each consignment of air cargo and evidences the contract between the consignor and the carrier for the carriage by air of the goods described therein. The Consignment Note is not a negotiable document and may not, therefore, be endorsed over to a third party for the intention of transferring the goods to which it refers. Company officers and agents only are permitted to issue Consignment Notes, which are completed from the details supplied in the "Particulars for Despatch of Cargo" form.

CONDITIONS OF CARRIAGE

All goods are accepted for carriage in accordance with the Company's general conditions of carriage. Extracts from these conditions are printed on the back of the Consignment Note and the full conditions may be inspected at any QANTAS Cargo Office.

AIR CARGO RATES

Rates apply for carriage by air from airport to airport and additional charges are payable for cartage to and from airports, customs formalities at points of transshipment, and for forwarding by post or rail, etc.

The nature and extent of these charges vary considerably, depending on such considerations as the local handling arrangements and Government regulations at points concerned. Full details of these charges are available at your nearest air cargo office or agent.

Where rates are quoted "per kg." (1 kilogram equals 2.2 lbs., or approximately 2 lbs. 3 ozs.), any fraction of a kilogram is charged as for the next higher half-kilogram. With "per lb." rates, fractions are charged as the next higher whole pound.

INSURANCE

Insurance facilities for Air Cargo are available through any QANTAS Office or Agent. Subject to restrictions in a few special cases, consignments may be insured against all risks, and cover is effective from time of acceptance until the consignment is delivered to consignee. Rates of premium are low (for example, Australia to the Far East or Southern Africa, 5/-, to Europe 6/-, to North America routed via the Pacific 5/-). Minimum premium is 1/- (Australian).

VALUATION CHARGES

The shipper is required to make a declaration of value on each international consignment. This need not be related to the actual value, but will normally limit carrier's liability for loss or damage. "No Value Declared" is an acceptable declaration. If the value declared exceeds U.S. \$16.50 (£5/17/10 English, £7/7/4 Australian) per kilogram gross weight, a valuation charge of up to 0.40% of that value will be payable (minimum U.S. \$0.28, 2/- English or 2/6 Australian).

QUANTITY DISCOUNT

Individual consignments of 45 kgs. (100 lbs.) or more (other than valuable cargo) are carried on international routes at reduced rates, the discount being approximately 25% for shipments of 45 kgs. and increasing with the higher weight breakpoints. The charge for any shipment shall not exceed the lowest charge calculated at the rate for the next higher breakpoint.

VALUABLE CARGO

Consignments of gold, platinum and platinum metals in certain forms, banknotes, shares and securities ("valuable cargo") are subject to a surcharge of 50% on the normal cargo rate.

COMMODITY RATES

Special reduced rates are available for the carriage of certain commodities when consigned between specific points on the world-wide QANTAS cargo network. For details of these rates please contact a QANTAS Office or Cargo Agent.

LIGHT BULKY CONSIGNMENTS

For carriage over international routes, the "per kg." rates are applied "per 550 cubic inches" if the volume of consignments (based on the extreme dimensions) exceeds 550 cubic inches per kilogram. (For consignments between points in Europe, the allowance is 427 cubic inches per kilogram.)

NEWSPAPERS

Newspapers, books, periodicals, magazines, catalogues and braille type equipment are carried on international routes at 50% of the normal cargo rate (66 2/3% for consignments between points in Europe). Minimum charge is as for 5 kgs.

UNACCOMPANIED BAGGAGE

On certain international routes a discount of 50% of the normal cargo rate is allowed to passengers who wish to consign, in advance, additional baggage by air as cargo. This concession applies to a minimum of 10 kgs., and is not available wholly within Europe or if transatlantic or transpacific carriage is involved. It is also restricted to carriage between the points for which the passenger holds a ticket, and cannot be granted if the baggage contains anything other than personal clothing (not documents, jewellery, cameras, commercial samples, etc.). Special reduced rates are available for carriage of personal effects in other areas, details of which may be obtained on request.

PAYMENT OF CHARGES

Air Cargo may be despatched over QANTAS routes with charges either pre-paid or payable by the consignee on delivery. The latter facility ("Charges Forward") is not available, however, in the case of perishable goods, consignments valued at less than the charges involved, consignments to Indonesia or New Caledonia or to other countries where currency regulations prevent the transfer or conversion of funds.

RESTRICTED ARTICLES

Under Government regulations, the carriage of goods in the nature of explosives, highly inflammable substances, compressed gases, corrosives or poisons is either prohibited, or permitted only under rigidly enforced safety conditions.

PERISHABLES

Perishable goods are accepted for carriage. Refrigerated space is not available, however, and special packing is advisable in many cases.

LIVE STOCK

Live stock may be carried on all aircraft subject to prior arrangement.

CUSTOMS REGULATIONS

QANTAS Offices or Agents will endeavour to advise you of any Customs or Quarantine restrictions which apply to your goods, but shippers are responsible for complying with the regulations and furnishing any necessary documents. **IMPORTERS!** QANTAS Customs Clearance and Delivery Service offers you fast, economical handling of all import formalities and arranges delivery to your address by road, rail, post or air, anywhere in Australia. For further information, contact our Shipping and Customs Department at Qantas House, Hunter Street, Sydney. For further information on any aspect of international air cargo, consult your local QANTAS Air Cargo Office or Agent.

The morning after the flight before. Qantas certainly understands the need to smooth the tensions of travelling executives. They know how to do it, too. You just settle down and relax in the hushed magnificence of your Qantas airliner. You'll sleep easily—enjoy superb cuisine and service. Browse through some work if you want: there's nothing to disturb you in the vibration-free cabin. You'll arrive at your destination exhilarated and energetic; fresh, rested, on time—ready to go straight to the most important meeting. Like the man in the picture. He knows Qantas is the best way of getting somewhere fast!

Australia's Round-World Airline
