The Sunshine Route

CONTINENTAL'S bold cut in flying costs has introduced the speed and luxury of air travel to hundreds of winter travelers.

All one-way and round-trip rates have been reduced to level of first-class RAIL COSTS. No limitations—good any day in the week; return tickets valid for 60 days.

The hours or days saved are pure profit now. Not only can you afford to fly with CONTINENTAL—but your travel costs will figure less.

Winter flying is smooth and beautiful. We don't hesitate to cancel a flight if flying conditions are in doubt, but this seldom happens on The Sunshine Route.

Make Your Reservations Early.

CONTINENTAL'S fleet of new Lockheed "12" super-powered twin-motor planes were put in service on July 1, 1937. Two skilled transport pilots have the finest of equipment and two-way radio at their command. Heated cabins are extremely comfortable and quiet. The twin-rudder design provides great stability and smoothness in flight.

CONTINENTAL'S passengers enjoy flying over one of the most scenic and historic sections of the country. Sculptured mesas and colorful canyons bewilder one accustomed to ground views of desert country. Travelers taking TWA from Albuquerque to Los Angeles or San Francisco fly over both the Grand Canyon and Boulder Dam.

Both weather and terrain on CONTINENTAL'S Sunshine Route appeal to the seasoned traveler—and our **RAIL COST** rates make the combination irresistible.
