# The Best and Getting Better!

At AirBC, we built our reputation by providing superior service to communities and cities throughout British Columbia. We've since extended our service to Seattle and Alberta. Today, AirBC is your Air Canada Connector, linking Western communities to Air Canada's world. Across Canada and around the world.

**And beginning June 14th service between  
Vancouver – Prince George and  
Prince George – Edmonton**

Our synchronized schedules permit quick, easy, convenient connections with Air Canada in Vancouver, Calgary and Edmonton. To save you even more time, we offer check-in and seat selection to Air Canada connecting flights. And through baggage check-in to your final destination.

As an added reward, every AirBC flight is worth a minimum of 800 Aeroplan miles. As an added bonus,

from June 14 to July 31, 1987, we are offering an additional 1000 Aeroplan miles one-way between Vancouver – Prince George, and Prince George – Edmonton.

The AirBC fleet consists of six Dash 7's, four Dash 8's and 10 Twin Otters – all designed and built by DeHavilland Aircraft, a Canadian company which leads the world in the manufacture of commuter aircraft. The Dash 8 is one of the world's most advanced commuter aircraft, cruising at 500 KM per hour and offering passengers wide body comfort with full inflight service.
