UTA FRENCH AIRLINES
A superb service for the long distance traveller

We have specialised in flying millions of passengers along the world's longest routes for over fifty years and few airlines – if any – can match us for care and comfort in the air over vast distances.

We've just launched three new classes to Africa covering Première de Luxe, Galaxy Business and Economy – and a check of this timetable will quickly demonstrate that these superb new services offer you a choice of more flights to more destinations in Africa than any other airline.

The international language of fine food and comfortable long distance flying is French – fly the best of both with

UTA

RECONFIRMATION:
Although certain airlines no longer require flight confirmation, UTA continues to apply this rule throughout its network. So, **please remember to confirm your flight** (return or onwards) should you break your journey anywhere for more than 72 hours. This will also enable us to keep you informed of any modifications to your flight. You may confirm any time after arrival, and up to three days prior to your departure. Once that deadline is passed, however, all unconfirmed bookings will be automatically cancelled.
