New route: London Stansted - Inverness

A number of new developments have been incorporated into our Winter 1996/7 schedule. It features a new service between London Stansted and Inverness.

Inverness has become an important business centre in the north of Scotland and Air UK is pleased to meet the increased demand for access to London. The city is also the most obvious arrival point for those wishing to explore the Highlands and islands.

Increased frequencies on Air UK services

Many of our services also benefit from increased frequencies in the new schedule. Growing demand has prompted extra daily services between London Stansted and Copenhagen and Zurich. The Manchester Amsterdam service has been increased from four to six flights a day. A number of other services, both domestic and international, benefit from increased frequencies over the weekend.
