1985. It's predicted to be an exciting year for the economy. We know it will be an exciting year at Air Midwest. First, 1985 marks our 20th Anniversary...20 years of getting Kansas business people where they need to go...fast. And second, in 1985 Air Midwest will introduce five new Saab-Fairchild 340's to its air fleet. These planes are bigger, faster, roomier and will be staffed with in-flight passenger service personnel.

**BUT WE STILL SERVE THE MIDWEST LIKE NOBODY'S BUSINESS.** Every single business day, Air Midwest flies from Kansas City to cities all over the great Midwest. We do it 80 times a day...that's more

than any other airline in the world. And then we fly you back again. With daily business flights like these, you have more time and more opportunity to make 1985 the year you want it to be for you and your business. At Air Midwest we look to 1985 with great expectancy... we've got more planes and more flights to offer — more often and faster than ever before. And we will offer all the inflight comforts available to us to make you comfortable while you take care of business. We hope you will look to Air Midwest to help make you look good in Mid-America in 1985.
