The Airlines Are Lifelines of a Nation at War

The United States Government has recognized this fact in several ways:

MAINTENANCE MATERIAL: All Airlines operate under a high priority rating. This assures a constant supply of replacement parts, reserve engines and propellers to keep all planes at peak efficiency for the fastest transportation of men, mail and materials.

GOVERNMENT INSPECTION: Government inspectors are under constant government inspection—supplemented by daily inspection by Airline experts.

PERSONNEL: Experienced Airline pilots and mechanics operate and maintain every transport plane, through the full co-operation of the U.S. Armed Forces, who recognize the fact that the Airlines are industrial Lifelines.
