Announcing . . . **NEW - FASTER SERVICE**  
with **"3-Mile-a-Minute" - Twin-Engine-BOEINGS**

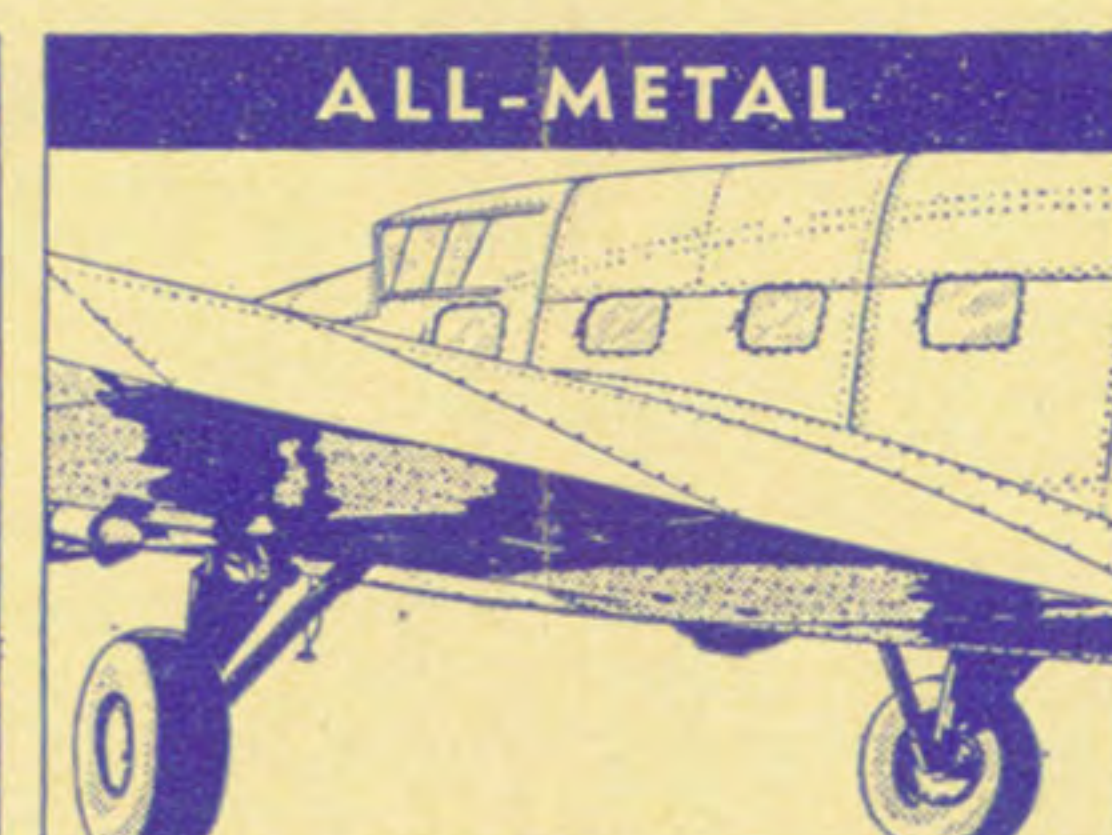

- Pennsylvania Airlines completes the eighth year of its airline operation with the installation of three-mile-a-minute Boeing transports on its route from the Capital to the Lakes.
- Selection of this famous plane was dictated by the company's long experience in flying mail, passengers and express more than 3,500,000 miles.
- No other high-speed multi-motored transport plane has flown as far or carried as many passengers as the famed Boeing 247. It has established enviable records in speed, passenger comfort and reliability on United Air Lines' mid-continental route, where it has been flown 20,000,000 miles.
- With Boeings, we bring you new comfort, new direct connections, greater speed, and the usual dependable P A L service.

**TWO PILOTS**  
Experienced pilots — eight years of flying over the same route.

**2 "WASP" ENGINES**  
Either of the 550-h.p. Wasp engines will sustain the plane in flight, fully loaded.

**ALL-METAL**  
Wing can support 36½ ton load, landing gear 32 tons, which is five times the plane's weight.

**2-WAY RADIO**  
The pilot is never alone. Below him is an "airway on the ground". Radio keeps him posted.

**COMFORT**  
Chairs recline to a "sleeping" position. Individual windows. Cabin insulated to minimize noise.
