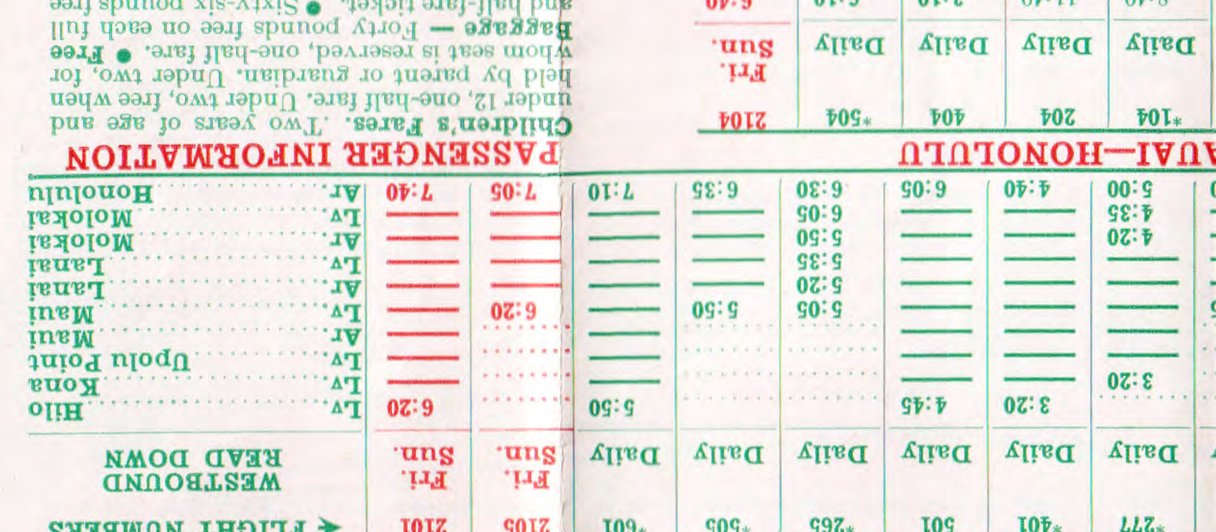
HAWAIIAN Airlines

20 YEARS OF DEPENDABLE FLYING



Hawaiian Airlines DC-3 Plane Flying Near Koko Head Crater

Hawaiian Airlines began operation November 11, 1929, on regular schedules between Honolulu and the various islands of the Hawaiian group. Since that time it has transported nearly **two million passengers.** It has flown millions of miles between the islands and established such a record of safe and dependable flying that the National Safety Council voted it a "special Award of Honor for Distinguished Service to Safety" **and this year awarded it a special citation for having the all-time safety record.**

Hawaiian was the first airline in the United States to operate scheduled air cargo planes and is now carrying millions of pounds of cargo annually. Since 1934 it has been carrying the U. S. air mail as the most southerly of American routes. Hawaiian has won the complete confidence of Hawaii's people. It operates between 50 and 60 scheduled flights daily, increasing to over 100 daily as traffic requires. Ten Douglas two-engined DC3 transports are used for scheduled passenger service between the islands.
