NORTHEAST AIRLINES' WAR-TIME SERVICE

Uncle Sam is the number one passenger on Northeast Airlines. And we have thrown all of our resources into assuring the fast and safe arrival of *his* men on their missions for victory. This has been the important task set for air transportation in America's war-time plans.

Yet, in addition to carrying out this vital military assignment, Northeast has been flying its civilian passengers to their destinations with frequency and regularity—even effecting service improvements in some instances.

Northeast will maintain general service at top standards. Experienced pilots and co-pilots will continue to fly every plane. Experienced, able mechanics and ground crews will be responsible for the efficiency of Northeast planes. And our highly-trained technical staff will, as always, be on constant duty for greater safety.

You, as a civilian passenger, will enjoy the same safe, speedy transportation that is helping Uncle Sam's men get on with the job.
