Flight Schedule Information

Northern California (415) 577-2500
 Southern California (213) 628-2857
 Outside California (800) 227-1527

NO RESTRICTIONS:

Unlike the fares of our competitors, our fare has no advance purchase requirement, no limited number of seats available, no anxious wait for hours at the ticket counter, and no round-trip purchase requirement. Ours is one-class service. All our passengers are "first class" to us. And we never overbook to **guarantee** ourselves a full flight: your ticket is your reservation.

BON APPÉTIT :

In-flight meals are available for purchase, or you are welcome to bring your own. (Cooking facilities are not available for passenger-furnished meals) Coffee, tea, soft drinks and milk are compliments of World Airways. Beer, wine, and alcoholic beverages can be purchased on board. It is against FAA regulations, however, for passengers to furnish their own alcoholic beverages.

ELEGANCE DEFINED:

That's what McDonnell Douglas calls its wide-body DC-10s. World flies the DC-10-30, the longest-range, most advanced model made. This plane features comfortable, contoured seats, bright, newly designed interiors, and all the conveniences passengers have come to expect, such as individual controls for air vents and lights. On the DC-10, you can also enjoy nine-channel stereo, and our in-flight movie. Headset rental charge is \$2.50.

TICKETING—A NEW CONCEPT IN CONVENIENCE:

You can buy your World Airways ticket at the World counter at the airport, from your travel agent, or you can take advantage of our exciting new concept in passenger service, and buy your ticket at any Ticketron* outlet. That's right! World and Ticketron have joined forces to make every stage of your trip as pleasant and convenient as possible for you. You needn't go any further than your local shopping center to make your reservation.

Tickets are sold on a first come, first served basis. You don't have to book long in advance, as with some types of budget fares, and you don't have to "camp out" at the airport for hours or days in an agony of suspense as you do for others. At the time of your purchase, you specify smoking or non-smoking sections, and you can pay for your meals then if you want us to provide them. Make your seat selection at the airport when you arrive for flight check-in. Your Ticketron ticket is all you will need for our domestic flights. Children two years of age and under, who do not occupy a seat, fly free. But, because all of our passengers fly at discount prices, there are no additional "discounts".

*Normal Ticketron charge will be applicable.

IF YOU MUST CANCEL OR CHANGE YOUR PLANS:

You may cancel or change your Flight up to seven days prior to the flight without penalty. Except as provided below, cancellations or changes made within seven days of the originally scheduled flight or failure to use the ticket for such flight will result in retention by World of a fee of \$50.00 (\$15.00 between Oakland and Los Angeles and between Baltimore and Newark) from the purchase price of the ticket, unless World is furnished proof, acceptable to it as provided in its tariff, of illness or death of the passenger or a member of passenger's immediate family. A ticket may be exchanged for a ticket on a flight with the same routing without penalty if the exchange is made at least 72 hours prior to scheduled departure of the original flight. Refunds may be obtained by writing to:

Revenue Accounting, Refund Section
World Airways, Inc.
Oakland International Airport
Oakland, California 94614

(In the case of credit card purchase, the amount of the refund will be credited to the purchaser's account.) Many other airlines overbook their flights in order to cover those last-minute cancellations, so "bumping" passengers is sometimes necessary. World never "bumps" a passenger because our seats are never oversold. However, passengers must check in at least thirty minutes prior to departure of domestic flights, then present themselves for boarding at least ten minutes prior to flight time in order to hold their reservations.

BAGGAGE:

You may check two pieces of baggage per person, each piece up to sixty-two inches (height + width + breadth) and seventy pounds weight, and you may carry on board one piece of luggage that will fit under the seat in front of you. You may check-in extra bags or overweight bags for \$25 apiece. A duffel bag, sea bag or items of sporting equipment (i.e., skis, bicycle, golf clubs) may be substituted for one of the two pieces of luggage.

PETS:

Pets may be shipped as cargo, in suitable containers supplied by the passenger. Animals are accepted for shipment only when advance arrangements have been made with World Airways, and cannot be considered as one of the two allotted pieces of baggage. Animals must be accompanied by valid health and rabies vaccination certificates, and since many areas have strict quarantine laws on animals, it is advisable to check with local authorities before planning to transport your pet.
